

Full-time is considered to be averaging at least 30 hours per week and payments will be based on a percentage of the total award amount at each education level as shown below.

Hours worked in direct care	Percentage of payment
10 – 20 hours worked per average week	50%
21 – 29 hours worked per average week	75%
30 and above hours worked per average week	100%

*The participant must average at least 10 hours per week to be eligible and 9.5 cannot be rounded up. However, in the other categories, rounding can occur. For example, if someone is confirmed to work 30 hours per week and her pay stub shows 29.5, that can be accepted. Otherwise, pay stubs **MUST** be within the range to receive that percentage of payment.

EXAMPLE:

If someone's six-month total payment could be \$1,000, s/he would be eligible for the following:
10-20 hours per week average = \$500
21-29 hours per week average = \$750
30 and above hours per week average = \$1000
